

- Complete the test with tools of your choice. Internet and other assisting tools (except help from a friend) are allowed.
- There are no special requirements. You may use languages you prefer: HTML5, SCSS/SASS, JS/jQuery.
- The HTML should be semantic and the web page must be responsive.
- It is important to meet the acceptance criteria. The final result must look exactly like the design we provided.
- Please add the time it took you to finish the task.
- Send the task back as a .zip file or upload it to GitHub and send us a link.

TASK

Backstory

Your employer pays the compensation from the 4th to the 8th day of sick-leave. The Estonian Health Insurance Fund pays from the 9th day. The compensation rate is 70% of your monthly gross income.

The maximum duration of one insurance event is 182 days, unless it's tuberculosis. For tuberculosis it is up to 240 days.

Story

As a user, I want to calculate my sick-leave health insurance compensation so that I can double check my compensation sum.

Acceptance criteria

- I can enter my monthly gross income
- I can enter my total days of sick-leave
- I can specify that I have tuberculosis
- I can see how much will my employer compensate me
- I can see how many days my employer has to compensate
- I can see how much will Health Insurance compensate me
- I can see how many days Health Insurance has to compensate
- I can see how much my compensation total will be
